CAPABILITY STATEMENT

COMPANY OVERVIEW

Futrell Government Solutions LLC (FGS) supports aviation and defense procurement through component sourcing, supplier identification, and coordination of customer requirements, documentation, packaging, and delivery. Customers work directly with the founder from requirement review through quotation.

CORE COMPETENCIES

Build-to-Print & Specification-Based Sourcing

Identifying qualified manufacturing sources for components made to customer drawings, technical data packages, and specifications.

Aviation & Defense Component Sourcing

Aircraft replacement parts, hardware, ground support equipment, tools, and consumables.

Supplier & Fulfillment Coordination

RFQ coordination, pricing, availability, traceability documentation, packaging, and delivery requirements. Manufacturer, part number, and country of origin identified on quotations.

Coordinated Service Solutions

Identifying qualified subcontractors and coordinating service requirements, schedules, and documentation.

WHY FGS

- **Hands-on flight line experience.** Daily work around aircraft and ground support equipment, so product needs are understood from the user's side.
- **Aviation facility perspective.** Firsthand knowledge of daily equipment, maintenance, and supply needs.
- **Purchasing experience.** Experience using purchasing cards and Ariba, working directly with suppliers, and sourcing facility and maintenance products.

RELEVANT EXPERIENCE

FGS is led by a founder with 11 years of experience in an aviation maintenance facility, including line service on the flight line and in the hangar, plus purchasing experience working with commercial suppliers. That background shapes how FGS sources products.
